DMAS Sub-committee Meeting

Fort Lauderdale, FL

April 15/16, 2014

No minutes from Fall 2013 meeting to approve. DMAS met jointly with NOS, so minutes approved at NOS.

QR coding scheme for NTN Data:
- Presentation Tom Bergerhouse.
- New QR code has been applied to NTN data.
- Previously disqualified samples are still disqualified.
- Has been applied to historical data.
- Data will be made available on the web before the fall meeting.

Discussion on Amnet data sharing policy:
- Collect data from who is downloading the data.
- Purpose for data use, publication, research etc.
- Statement that data will be distributed to the PI and PI may contact user for collaboration.
- Published data = collection date > 1 year.

    Motion 1 by Mark Olson, second by Kevin Mishoe, motion passed.

    Move to approve the modified data sharing policy as presented by Bob Larson. Modification includes: Check box if data will be used for publication, data collected from user (phone#, e-mail, affiliation, reason for download/use), statement to be included with download that the collected data will be distributed to PI's who might contact user for collaboration etc.

Discussion on aggregate data products:
- Amon – annual averages, quarterly, seasonal.
- What to release on the web?

Motion 2 by Bob Larson, second by Kevin Mishoe, motion passed.

Request that the PO publishes/releases on the website the AMON annual and seasonal data.

Discussion on Amnet data products:
- Goal is dry deposition maps.
- Point specific maps?
- Present in fall example of plots, graphs etc. for possible use on web.
- Post on Amnet web page a description of dry deposition, the limitations and cite papers.

Discussion on data use conditions and copyright:
- Current data is in public domain, but NADP put restrictions on the data like you need to cite NADP etc.
- Open data foundations.

Motion 3 by Kevin Mishoe second by Eric Prestbo, motion passed.

DMAS recommends use of separate licenses for NADP data products as discussed in DMAS: Discussion about public domain but NADP puts "restrictions" on use of data. Does license violate MOA?
